

Announcing...
Meteor Incorporated

Science fiction and fantasy readers like to collect books, magazines and electronic media. Many of us own collections that are rich in memories and information, and sometimes worth quite a bit. What will happen to these collections when we can no longer take care of them? We should have an institution to which readers and fans can send or will their collections, in the knowledge that they will be taken care of and continue to be accessible.

Such a facility needs a building to house books, magazines & other media and qualified personnel to archive, shelve and display them. **Meteor Inc** is an incorporated Association under the Victorian Associations Incorporation Act 1981 that was formed in August 2007 with the objective of accumulating cash donations and bequests until enough funds are available to

- **preserve and manage a collection of science fiction and fantasy memorabilia (books, magazines, fanzines, and electronic media) through acquiring premises and hiring qualified librarians/custodians; and**
- **provide a resource for research into science fiction and fantasy literature and culture.**
