

# CUMULATIVE SUBJECT INDEX TO OPUNTIA

## #1 TO #350

compiled by Dale Speirs

References are to issue number:pages. For example, 12.5:3-6,9 means issue #12.5, pages 3 to 6 and page 9. Trivial reviews and ephemeral items are not indexed.

Between issues #1 and #71.5, whole-numbered issues were sercon, x.1 issues were reviewzines, x.2 issues were indexes, x.3 issues were apazines, and x.5 issues were perzines. #71.5 was the 247<sup>th</sup> issue of OPUNTIA. The next issue after it was numbered #248 and thereafter numbered in the ordinary way. The issues from #72 to #247 inclusive do not exist. Beginning with #248, there was no longer any distinction between sercon, reviewzine, apazine, or perzine, and editorial copy was unsorted.

For individual authors, see under Writers.

For individual actors, see under Actors.

For individual directors, see under Directors.

For individual artists, see under Artists.

For individual editors, see under Editors.

SF = science fiction
